

District Values and Generative AI

Trust and Respect

We believe in transparency and ethical use of AI, ensuring honesty in digital communications and respecting privacy and security measures.

Equity

We believe in providing accessible AI tools for all students and staff by regularly evaluating AI systems to understand biases and ensure fair treatment.

Community & Collaboration

We believe in fostering collaboration by using AI projects that benefit the community, and ensuring AI systems give proper credit and verify information accuracy.

Personal Growth

We believe in using AI to enhance personalized learning experiences, supporting students in pursuing their passions and adapting to changing circumstances.

Inclusive

We believe in facilitating culturally sensitive and inclusive AI systems, creating safe spaces for exploring diverse perspective and supporting students with diverse abilities.

Safety

We believe in protecting personal information and adhering to privacy laws. We promote safe AI use by educating about potential risks and encouraging responsible behaviour.
