

CAREER EXPLORATION PROJECT

Grade 6 | myBlueprint Career Investigation

YOUR GOAL

Use your completed career notes to teach others about one career and explain how that career connects to you. Your project should be accurate, easy to understand, well organized, and written mostly in your own words.

1. Choose one career

After researching three careers in myBlueprint, choose ONE career for your final project:

- Compatible Career #1, chosen from your myBlueprint matches
- Compatible Career #2, chosen from your myBlueprint matches
- Your Dream Job, chosen by you

2. Choose one way to present

CANVA POSTER

Create one clear, polished poster. Use sections, headings, visuals, and short blocks of text.

GOOGLE SITE

Create a small website with clearly labelled pages or sections and easy navigation.

GOOGLE SLIDES

Create a slide presentation with clear titles, readable text, and relevant visuals.

3. Include all of these elements

Career overview: Name of the occupation and a clear description of its main duties.

Skills and abilities: Important skills and abilities needed for the career.

Your connection: Skills and abilities you already have, and skills and abilities you still need to develop.

Education: The level of education needed: apprenticeship, college, on-the-job training, secondary school, university, or another pathway.

Career requirements: Other requirements for the occupation, such as training, certification, experience, licenses, or courses.

Workplace: What the workplace and usual working conditions are like.

Future outlook and pay: Job outlook in British Columbia and the Thompson-Okanagan, typical pay, and expected employment growth over the next 10 years.

Personal reflection: What interests you most about this occupation and why.

4. Quality checklist

- ☐ I used information from my completed notes and checked that it is accurate.
- ☐ I wrote in my own words instead of copying large sections from myBlueprint.
- ☐ My headings and organization make the information easy to find.
- ☐ My text is readable, and my visuals help explain the career.
- ☐ I used complete ideas, checked spelling, and included my name.

CAREER UNDERSTANDING RUBRIC

This rubric assesses how clearly and accurately you demonstrate your understanding of the career using the information from your notes.

CRITERION	DEVELOPING	PROFICIENT
Career duties	Identifies the career and gives some duties, but the explanation may be general, incomplete, or partly unclear.	Clearly identifies the career and accurately explains its main duties using specific details.
Skills and abilities	Names some relevant skills or abilities, but gives limited explanation of why they matter.	Explains the important skills and abilities needed and shows how they connect to the work.
Personal connection	Identifies a skill already possessed or one to develop, but the connection to the career needs more explanation.	Thoughtfully explains skills already possessed and skills still to develop, with clear connections to the career.
Education and requirements	Gives some education or training information, but important pathway steps or requirements are missing or unclear.	Accurately explains the education pathway and other important requirements for entering the career.
Workplace	Gives a basic description of the workplace, with few details about conditions or setting.	Clearly describes the workplace, including relevant settings, conditions, or ways of working.
Outlook and pay	Includes some information about outlook, pay, or growth, but details for British Columbia, the Thompson-Okanagan, or the next 10 years are incomplete or confusing.	Accurately explains pay, job outlook in British Columbia and the Thompson-Okanagan, and expected employment growth over the next 10 years.
Interest and reflection	States an interest in the career, but gives a limited explanation or weak connection to personal interests.	Clearly explains what is interesting about the career and makes a meaningful personal connection.
Overall understanding	Shows a partial understanding. Some information is accurate, but missing details or unclear explanations make the career difficult to fully understand.	Shows a complete and accurate understanding. Relevant details are organized and explained clearly enough to teach someone else about the career.
